

# WARNING TO Mountain Bikers

The area of Henry Cowell Redwoods State Park which lies between Highway Nine and UCSC has always been closed to bikes and dogs due to the sensitive habitat. The Ranger staff has not been enforcing the rule (CCR 4360) due to the lack of staffing. However, staffing is back up to levels which will allow us to enforce the NO BIKE rules for this section of the park.

Starting Sunday, February 15, 2009, any bike entering or leaving the above listed section of Henry Cowell Redwoods State Park may receive a citation for riding in an Area Closed To Bicycles (CCR 4360) and Destruction of Plants (CCR 4306) . We are allowing a few weeks to adjust to the renewed enforcement and encourage you to use the designated trails of UCSC and Pogonip for your “Single Track” riding.
